Notes related to financial history and projections FY1977 - FY2020:

- Appropriations include special general fund, realized earnings, and other miscellaneous appropriation transfers into principal.
- Dedicated State Revenues in current and future fiscal years are based on the Fall 2009 Department of Revenue forecast.
- Accounting net income is based on United States Generally Accepted Accounting Principles (GAAP). Statutory net income is accounting net income, excluding any unrealized gains and losses on investments, and excluding earnings on Amerada Hess, et al. settlement principal.
- FY05 and forward, Amerada Hess, et al. annual net positive settlement earnings are transferred to Alaska Capital Income Fund per AS 37.13.145(d).
- FY03 Senate Bill 100 transferred \$354 million from realized earnings to principal. FY04 Senate Bill 283 defined that appropriation as pre-FY04 inflation proofing, so it was moved from appropriations to inflation proofing, along with the balance of \$170 necessary to fully inflation proof the Fund. \$15 million in settlement earnings remained in appropriations.
- Current year returns are based on 2009 Callan capital market assumptions. A range of returns is shown to illustrate a variety of possible outcomes.
- Future returns are based on 2009 Callan capital market assumptions and median expected returns (the mid case). Actual results will vary.
- Per Alaska statute 34.13.140, dividend projections in FY2010 are limited to one half of projected ending unreserved fund balance.
